

Uju Girl Child Foundation Newsletter

- Hello Readers, A Girl Child Is Asking For Help!
- SEPTEMBER CALL-TO-ACTION

Every day, in Nigeria, Africa and all over the World, there are Girl Children, who are poor, orphaned, homeless, deprived of an education, mistreated, physically abused, raped, vulnerable and/or generally going through hard times in the World because they have nobody to help them.

Instead of allowing them to suffer and die miserably in the streets and ditches, we aim to pick them up, reform them and establish them, put them in the shelter and send them back to school. We plan to do this to help, in collaboration with the Governments and other NGOs, to give Girls a meaningful life. We plan to create Jobs, Development Programmes, Training, and Mini Businesses, where possible, for Girl Children out there.

1. Global Giving Fund Campaign - 14-30 September 2020

“Education and Food for Every Girl Child in Nigeria”.

There are currently a huge percentage of Girl Children of school age in Nigeria, who are not able to attend school and gain the education that they deserve. This is often due to poverty in general in their communities and many are orphans, with no support network, to pay for school fees and essential equipment, such as books, clothing and sanitary products. Hunger is also a huge problem in such communities, which is what our project aims to eradicate.

"I think you people are doing a wonderful job for girls in Nigeria and wider Africa. God bless your hearts and your hands to do greater and greater works for the needy people of this world."

-Udofia Akpan,

1. GOFUNDME Campaign - Ongoing
2. FUNDRAZR Campaign
